

**Centennial of Service Celebratory Brunch with  
Playground & Community Garden Challenge  
April 22 @ 12:30 PM – Green Pond Country Club**

An Easton Kiwanis Club Celebration of Service will take place at the Green Pond Country Club on **Sunday April 22, 2018**. The afternoon will celebrate the **100<sup>TH</sup> ANNIVERSARY** of the Easton Kiwanis Club’s unstinting provision of volunteers and financial support to many local agencies, schools and children’s programs. It’s a notable history of service and philanthropy.

**The Celebration is also the kick-off to fund a model playground and a community garden to promote healthy living through outdoor activity and healthier nutrition.** The public playground and garden will be located on the grounds of the Boys & Girls Club of Easton, making the playground and garden a gathering place for children and adults to interact on the site of a respected organization in that community.

**We ask you and/or your company to join us in fulfilling this goal.** Outdoor play is a missing element in the lives of many children and an appealing, safe place adjacent to a facility devoted to youth is a perfect place to promote it. At the same time building interaction between adults and youth who are focused on good, local produce creates a great mentoring opportunity for our youth while building better knowledge of nutrition at the same time.

We have established several levels of community giving by which you or your company can help us provide these much needed facilities.
